My experience in programming

(2022 -2024)

LEARNING THE ROPES

- Started by learning the fundamentals of Python and programming through a beginner's course on freeCodeCamp's YouTube channel.
- Started working on the basics of the web stack: HTML and CSS.
- Earned the certificate of completion for Responsive Web Design.
- Moved on to Javascript now that I had my web development basics down.
- Earned the certificate of completion for Javascript Algorithms and Data Structures.

(2024 - Current)

DELVING INTO THE DEEP END

- Moved on to learning React.js now that my fundamentals were solid.
- Created my own personal portfolio website to host my future projects.
- Currently working on my personal projects to deepen my knowledge and understanding. Also getting more into backend/full-stack.
